INITIAL PROJECT: KAZI HALIMA SATTAR HOSPITAL

A centralized provider of comprehensive healthcare services. This hospital is dedicated to provide immediate medical care to the women of this rural community by providing evidence-based integrated care facilities. Our practice reflects our values of excellence.

Through this hospital and partnering with community organizations we've been able to serve this community from October 2021 to February 2022. In that time we've been able to impact the lives of 20,000 patients.
